1. The restriction requirement has been dropped
2. Claims 2 and 29-47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 is confusing because "n" isn't fully defined.

Claim 37 is confusing because it's missing Formula II.

Claim 29 is confusing because Formula I is in the wrong place and a stray formula is in the claims. The wording "hydrocarbon group" is split into many pieces and spread over many lines.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1,3-5, 7-10 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Werner.

Werner discloses a composition made by reacting a trialkanolamine with oleic acid (see, for example, Release Agent II – col. 13). He then reacts this with diisocyanate (col. 3, lines 11-30). In claim 4, he discloses ricinoleic acid, and in claim 11, he discloses triethanolamine. In col. 3, line 22, he discloses isophorone diisocyanate.

5. Claims 6, 11, 12, 49 and 50 are objected to for depending on rejected claims.
